Dharati Kamble

Chikhali,Pune – 411062
(+91) 7276988090
dkamble031993@gmail.com

My goal is to excel in a competitive tech environment by taking on challenging responsibilities. With over 6 years of experience in the IT sector, specializing in Java, Angular, Node.js, Express.js, and PHP development, I have contributed to both design and development projects. My most recent experience is in Angular and Node.js, and I served as a Senior Software Engineer at Quick Heal Technologies for 1.5 years.

EDUCATION

SAVITRIBAI PHULE PUNE UNIVERSITY

Master of Science in computer science: 60%   *2017*

Bachelor of Science in computer science: 58%   *2014*

MAHARASHTRA STATE BOARD

Higher Secondary(Maharashtra State Board): 49%   *2011*

Secondary(Maharashtra State Board): 70%   2009

HIGHLIGHTS

- Experience in writing Automation scripts using PHP.

- Proficient in client-side web development using HTML5, CSS3, Bootstrap and Angular 14+.

- Skilled in server side web development using Java, Node.js and PHP.

- Experience in Algorithm designing.

- Sound knowledge of operating systems internals.

- Strong analytical and problem solving skills.

Databases: MySQL - Relational, NoSQL(MongoDB)- Non Relational

Operating Systems: Windows, Linux Distributions

JavaScript Libraries: jQuery, AngularJS

Testing Techniques: Unit Testing

PROFESSIONAL EXPERIENCE WITH PROJECTS

Quickheal Technologies,   **Viman Nagar, Pune**
Senior Software Engineer   *Feb 2023–July 2024*

Project Name : Quick Heal

- Developed custom modules for subscription services, order processing, and renewals.

- Optimized SEO performance using W3 Speedster and implemented lead capture features.

- Utilized reactive forms for validation in Angular 14+ and implemented services for efficient data sharing between components. Additionally, integrated connectivity with Node.js and Express.js for backend communication.

- Designed front-end interfaces using Bootstrap for a responsive user experience.

- Used MySQL to storing user-entered data efficiently.

- Deployed applications using Amazon S3 on AWS.

Project Name : Event Management System

- a event management system using Node.js, including login, signup, and event details forms with validation. It allows storing, updating, and deleting information as needed.

- Backend : Node.js, Express.js

- Used Routing Module for navigating login and signup

- Frontend : Angular 14+, TypeScript, HTML, Bootstrap/Material UI

- Used MongoDB to efficiently store user-entered data.

Netwin Infosolutions Pvt. Ltd.   **Nashik**
Software Developer   *Dec 2021–Dec 2022*

Project Name : Maripak USA, Machine Parts Tools, Machine Gorilla

- Focused on data migration for Magento 2 projects, supporting multiple stores and multi-store functionality.

- Created REST and SOAP APIs, and shared API collections with clients.

- Worked on form validation using JavaScript and handled layouts using XML.

- Designed front-end interfaces using Bootstrap.

- Migrated data using MySQL.

Microwebies Services   **Pune**
Software Engineer   *Mar 2019–Dec 2021*

Project Name : Sawai Foods, Packaging Chimp

- Focused on client-specific requirements and developed modules for various projects.

- Worked on form validation using reactive forms and implemented components, services, pipes, directives and RxJS library in Angular 10+.

- Designed front-end interfaces using Bootstrap.

- Created REST APIs and shared API collections with clients.

Pandora It Solutions Pvt. Ltd.   **Pune**
Junior Full Stack Developer   *July 2017–Feb 2019*

Project Name : Terra Brand

- Worked in a service-based company, focusing on client-specific requirements.

- Updated and created modules for various projects using the CodeIgniter framework.

- Utilized a range of technologies, including PHP (CodeIgniter framework), Core PHP, JavaScript, jQuery, Ajax, CSS, HTML, Bootstrap, and MySQL.

TECHNICAL HIGHLIGHTS

- Knowledge of front-end development using Angular 14+.
- Knowledge of Amazon Web Services (AWS), Cron, Data Migration Techniques, Theme integration using magento.
- Knowledge of Node.js for server-side development.
- Proficient in front-end development using Material Design and Bootstrap.
- Familiar with NoSQL database as MongoDB.
- Knowledge of REST API integration.

DECLARATION

I am confident of my ability in leading the team. And I hereby declare that the information furnished above is true to the best of my knowledge.
